

9/29/2017 Help Getting on NW Geography Jobs list on Google Group
(from Nancy Hultquist, Emerita Prof, Geography, CWU, and co-moderator)

This link gets you to the list: <http://groups.google.com/group/jobsnancycaitlin/>
To subscribe, please contact me at **jobsnancy@gmail.com** Include this info:

- (1) Your first and last name
- (2) Your email address (preferably Gmail or another, rather than an .edu)
- (3) Your degree & when/where expected, or when received, and where
- (4) Your discipline(s)/department (this jobs announcement list covers many)
- (4a) Your job description, if you have one now & (4b) how you learned of the list
- (5) Your interests -- academically and personally (none of any info shared elsewhere)
- (6) Delivery type - (e) email for every job sent, (a) ABRIDGED version once daily, (w) web site access only (no daily emails), **I do not recommend that.**

Included now are **OUTREACHES** (special announcements of notifications for government jobs before the actual listings, which eventually appear on USAjobs or are advertised by the organization sending). These sends are labeled in the subject line as: "Outreach", the location, & with a short description. The outreaches carry an attachment with a description and usually a form you must fill out to get into the pool of applicants. The attachment may come as a Word doc or docx or as a PDF file.

I no longer separate **GEOLOGY or OUTREACHES**, but I will continue to separate **FIRE** jobs. I usually designate that distinction in the subject line with the location and description of the job.

I prefer that you send me this information from the email address you wish to use to receive job announcements. Gmail or other domains are preferred to xxx.edu accounts. Supposedly, you get better information from Gmail accounts, because this is a registered GoogleGroup.

Jobs sent out cover many disciplines and organizations and are located nationwide. People from all over the U.S. are members of this list, and provide announcements to share. For any other questions, just ask. And, please share any job announcements we miss seeing. We will publish the name of the person donating the information, but not their email address.

If you obtain a job from an announcement on the list, please share that! Much time and effort goes into the production & distribution of this list, and we are happy and excited to hear of employment resulting from our efforts and that it has been time well spent. We now have 735 list members. In addition, please share any jobs or internships with me for sending the list. Most of my knowledge comes from list members (previous students, employers, faculty members, and many others).

If you do not get a response from me, then use my other personal account, nancyb.hultquist@gmail.com, or if no answer at jobsnancy@gmail.com, please contact my hubby John (also a geographer) at home, at NancyJohnHultquist@gmail.com. On the occasion, if I am unavailable on line for a week, my friend, Caitlin LaBar, our other moderator (also my former geography & GIS student), will take over. She managed and started this list on Google Groups when I was in ICU & Rehab for 3.5 months in 2009 and 2010 for multiple heart surgeries & recovery. I started this on Bitnet email in the 1990s! Please consider sharing this info with friends not on our list. Makes our job easier.
